FORD MUSTANG GT

2005 - 2006

PLASTIC GRILLE SHELL
WITH CENTER MOUNT STYLE

INSTALLATION INSTRUCTIONS

VERY IMPORTANT ! Read and understand all directions and check the following parts list before starting installation.

NOTE: THIS KIT FITS V-8 MUSTANG ONLY

PARTS LIST

1	Grille Shell	1	Instruction Sheet	2	Light Harness Extensions
				2	White Plastic Sleeves

TOOL LIST

Flat Blade Screwdriver, Panel Removal Tool, Ratchet, Extension, # 25 Torx Socket

1. Open hood.
2. Remove the header panel between the grille and core support by prying up the center pin and then prying up the body of the retainer. See photos below.

Remove Panel

3. Remove the OEM grille by using a flat blade screwdriver and prying the tab on the fascia while depressing the locking tab on the grille. Do both sides first and then the bottom, gently pulling forward as you go. See photos below

Remove Lamps

6. Set the Street Scene grille shell face down on the table. Be sure to cover table so that the grille does not get scratched. Place the lamps onto their mounting posts. Install the black plastic sleeve onto the torx head screw over the top inner mount on the lamp. Failure to do so WILL DAMAGE the grille and void the warranty. Start all the remaining torx head fasteners then tighten snugly. See photos below.

PHOTO # 10

7. Connect the light harness extension to the lamp harness. See photo below.

PHOTO # 11

8. Install the Street Scene grille shell. Plug in the lamps sockets and align the tabs on grille with the slots in fascia. Push the bottom of the grille in while gently pushing down on the drivers side lamp socket to clear the sheet metal. It will be a little tight going in but once installed the lamp socket will be on the back side of the sheet metal with adequate clearance. See photos below.

SNAP THE ENTIRE GRILLE INTO FASCIA

9. If needed the lamps can be adjusted at this time with a screwdriver turn adjuster screw clockwise or counter clock wise to adjust. See OEM specification manual for adjustment. See photo below

PHOTO # 14

10. Replace the top panel using the fasteners removed in step # 2. See photo below.
