INSTALLATION INSTRUCTIONS

1. Install the Speed Grille insert into the opening in grille shell. Center in the opening. NOTE: It will be your option to remove the mesh.
2. From the back side, clip the top side of Speed grille to the grille shell using the long narrow clips. Clip the bottom side with the wider clips the flat side of the clip goes away from the grille on both. Clip where you can reach the " Loop " in the Speed Grille. It may be helpful to use a flat blade screwdriver to hold the Speed Grille against the grille shell to aid in installing the clips.

NOTE:

To complete the Street Scene look you may install P. N. 950-77925 into the lower valance.
