&
950-78901 CHROME FINISH
SPEED GRILLE
MAIN GRILLE
OEM VALANCE
97-03 PONTIAC GRAND PRIX

VERY IMPORTANT ! Read and understand all directions and check the following parts list before starting installation.

PARTS LIST					
1	Street Scene Emblem	1	Instruction Sheet	1	Right Lower Speed Grille
		24	Attaching Clips # 71098	1	Left Upper Speed Grille
		1	Left Lower Speed Grille	1	Right Upper Speed Grille

TOOL LIST	
Phillips Screwdriver, 10 MM Wrench, Flat Blade Screwdriver, Tape	

1. Remove Speed Grilles from their packages.
2. Open hood and remove the air deflection panel between front end and radiator. With a flat blade screwdriver, pry up the center pin on the retaining fastener and pull gently to remove. Remove the 10 MM screws.
3. Remove the two phillips head screws securing each grille section in the front end.
4. Speed Grille inserts are made for a precision fit. We advise applying tape to the perimeter opening to avoid scratching the paint when installing. If the fitment is too tight carefully bend the return edge slightly to avoid scratching the paint.
5. Install the Speed Grille sections from the front side, secure with four attaching clips, 2 on top side and 2 on bottom side. Install with the flat side on clip away from grille. Make sure grille is aligned properly.
6. Remove the air deflectors on the underside so that you will have access to the back side of openings in the lower valance.
7. Install Speed Grille from the front side of valance and attach from the inside with the clips provided. Position clips at each end, top & bottom, and the others equally spaced between. Make sure grille is installed fully into the opening.
8. If clips do not reach the grille the Speed Grille is not installed deep enough into the opening.
9. Attach the Street Scene Emblem to the Grille. Remove the protective cover on the face.

NOTE : WILL FIT GT & GTP MODEL ALSO FITS SE 2001 MODELS

TYPICAL CLIP INSTALLATION
