INSTALLATION INSTRUCTIONS

VERY IMPORTANT ! Read and understand all directions and check the following parts list before starting installation.

PARTS LIST

2	U-Hooks	1	Instruction Sheet	1	Center Insert
2	Loc Nuts	2	Stop Brackets	1	Driver's Side Insert
4	Phillips Head Screws			1	Passenger Side Insert

TOOL LIST

Phillips Head Screwdriver, 5/16 Wrench, 5/16 Socket, 1/16" Drill Bit, Drill Motor

1. Set the billet insert into the opening on the grille shell. From the back side connect the u-hooks thru the grille shell and on the stop bars on the insert. This is for the center insert only. Use 1 hook on each stop bar. Use 1 on the left side and 1 on the right side. Next put the stop brackets on the u-hooks and then the nuts.
2. Now you need to put the side pieces in place in the center and drill two holes 1/16" through the shell. Now use the phillips head screws two for each side.
3. Next make sure you have everything centered and tighten all nuts and screws.
